

Dear Sponsor,

I'm inviting your student to attend a field trip to the Hobby and Elektronik 2007 Exhibition in Stuttgart, Germany on Friday, the 16th of November. We'll leave the school at 0805 and, depending on traffic, return around 1830 the same day. Since this is happening outside normal school hours, please make arrangements for your student's transportation from school. **Since I may not leave until all students have been picked up, it's important that you are waiting for child upon our return.**

Admission for the exhibition is 5 Euro. This fee is to be provided by the student. I need it in exact change and paper money is best. This admission fee does not include meals so please make sure your student brings food or has Euros to buy some.

The exhibition is at the Stuttgart Messe, Am Kochenhof 16, Stuttgart, Killesberg. The telephone number is (0711) 2589-0. This exhibition is Europe's largest exhibition and market for all types of hobbies, including model trains; remote control cars, planes, gliders, boats, helicopters, tanks, blimps, and hot air balloons; as well as crafts, electronics, kites, computers and computer supplies. The exhibitions include remote control car and boat races, remote control helicopter demonstrations, and model train layouts. Your student might ask for additional Euros to purchase something they may want. This is completely up to you.

I will be sending home a Medical Power of Attorney. Sign this form and fill in the appropriate information. I need 10 Euros, this form, and the Medical Power of Attorney returned to me when your student boards the bus.

NOTE: This is a spectacular event... a real treat for the kids as well as any adult who has a hobby or wants to start one. It's the best trip we've ever been on. We only have room for 47 students and 3 sponsors. The selection criteria for this trip is as follows:

Students that don't meet eligibility grade requirements will not attend. In the event that more than 46 students qualify, those students in Mr. Pendzich's classes have priority. Exceptions to this policy will be made at my discretion.

I'm looking for some parents that would like to help chaperon the trip. I have some great kids and your admission would be the same as the kids. How about it? Please send me an email at frank.penzich@eu.dodea.edu if you're interested.

Sincerely,

FRANK C. PENDZICH
